

JUMBO 900/1000

- Heavy duty construction with 4 wheels, allowing ease of movement around the work site.
- Graduated scale on an angle, which gives the operator greater visibility of the cutting guide position.
- Curtain located in front of the blade reduces the amount of splash when the machine is in use.
- Improved blade guard provides even easier access to the blade. This reduces the amount of machine downtime when the blade is being replaced.
